

NOTICE OF 2012-2013 ASCB ANNUAL MEMBERSHIP AND SUBSCRIPTION

Due Upon Receipt

THE AMERICAN SOCIETY FOR CELL BIOLOGY

TAX ID No. 39-6054285

Remit to the Society at:

The American Society for Cell Biology
8120 Woodmont Avenue, Suite 750
Bethesda, MD 20814-2762 USA

WE DON'T WANT TO LOSE YOU! Renew online at www.ascb.org or by mail or by fax. Don't miss out on benefit discounts, low meeting registration rates, community, advocacy, and career resources.

This invoice must accompany your remittance unless you renew online at www.ascb.org.

Please provide name, address corrections or additions below:

Thank you for being a part of the ASCB international community! No biology society advocates more for basic research, provides as many critical career development resources, and as much assistance to educators.

A. ANNUAL DUES 2012-2013 (U.S. DOLLARS)..... **Amount**

Rates: Undergraduate Student-\$28 Graduate Student-\$53 Postdoctoral-\$83 Regular-\$181

B. Molecular Biology of the Cell (MBoC)

Your personal electronic copy is included in membership.

C. CBE-Life Sciences Education

Electronic access is available at www.lifescied.org

D. DISCOUNTED OPTIONAL SUBSCRIPTIONS

FOR MEMBERS ONLY (2013 ISSUES ONLY OR AS NOTED)
(U.S DOLLARS)

		Regular Rate	ASCB Member Rate		Regular Rate	ASCB Member Rate
Annual Review of Cell & Developmental Biology <i>(Available October 2012)</i>	Vol. 28	103.00	74.80	_____	Development (2013, 24 issues)	
					Print only	799.00 524.00 _____
					Online only	210.00 140.00 _____

GRAND TOTAL FOR A, D & E.....\$ _____

Member benefits also include discounted MBoC page charges, free CV postings, membership directory access (to include member focus, techniques, teaching level, model organism, and more). Annual Meeting Special Interest Subgroup application, Dear Labby questions, and discounts on products, position ads, insurance, credit cards, and more.

Questions? Contact:

ASCB
8120 Woodmont Avenue, Suite 750
Bethesda, MD 20814-2762, USA
Tel: 301-347-9300 Fax: 301-347-9310
ascbinfo@ascb.org www.ascb.org

We Value Your Membership!

METHOD OF PAYMENT

Check enclosed. Make check payable to ASCB in U.S. currency. Check must be drawn on a U.S Bank

Charge \$ _____ to: MasterCard VISA AmEx

Name on Card

Account Number

Expiration Date

Billing Address

Signature (Required for credit card payment)

NO PURCHASE ORDERS ACCEPTED NOTE: Members will be notified of overpayment. Unless otherwise requested overpayments will be repaid to the member or institution originally making the payment.

Please take a moment to complete the following demographic survey to help us help you identify members in your fields of interest, colleagues for discussion of approaches, techniques, model systems, and to help us quantify our membership diversity to funding sources:

MAJOR RESEARCH INTEREST (check all that apply)							
Actin Cytoskeleton/actin-based structures		Cell Division/Cell Cycle					
Microtubule Cytoskeleton/MT-based structures		Signal Transduction and Signaling Networks					
Intermediate Filaments		Proteostasis, Cell Stress and Aging					
Molecular Motors		Cell Polarity					
Cell Migration and Motility		Development and Morphogenesis					
Cell-matrix and Cell-cell Interactions		Cancer Cell Biology					
Glycobiology		Translational Research					
Lipid biology		Cellular Neurobiology					
Membrane Trafficking		Microbial Biology					
Organelles and Membrane Biology		Immunology					
Nuclear Structure and Function		Stem Cell Biology					
Regulation and Organization of the Genome		Computational Modeling					
RNA Biology		Other					
EXPERIMENTAL APPROACH (check all that apply)							
Cell Biology		Genomics					
Developmental Biology		Proteomics					
Molecular Biology		Bioinformatics					
Chemistry/Chemical Biology		Computational Biology					
Biochemistry		Systems Biology					
Structural Biology		Light/fluorescence Microscopy					
Genetics		Live-cell Microscopy					
Virology		Electron Microscopy					
Drug development/pharmacology		Synthetic Biology					
Microbiology		Organism Physiology					
Electrophysiology		Other					
Bioengineering							
MODEL SYSTEM (check all that apply)				TEACHING ACTIVITY (check all that apply)			
Mammalian cells				None			
Yeast				Minimal			
Bacteria				Moderate			
Protista				Full-time			
C. elegans				High School			
Zebrafish				Undergraduate			
Xenopus				Graduate			
Mouse				Medical			
Stem cells/iPS cells				Public			
Plants				Other			
Other							
CURRENT FUNDING SOURCES
