

The Weizmann Institute of Science in Rehovot, Israel, a world-leading research institute in the fields of life sciences, chemistry, physics, mathematics, and computer science, offers attractive postdoctoral opportunities.

The Weizmann Institute offers a unique, multidisciplinary setting that enables its postdoctoral fellows to conduct world-class research projects using state-of-the-art research facilities in a spectrum of fields.

The David Lopatie Hall of Graduate Studies housing the Feinberg Graduate School

Why the Weizmann Institute?

The Weizmann Institute has been a pioneering scientific research institution since its establishment in 1949. We value the innate human spirit of curiosity, innovative thinking, ingenuity, and passion for science.

Interdisciplinary research

There are approximately 250 research groups led by scientists who explore a myriad of cutting-edge scientific questions, often through interdisciplinary collaborations—a hallmark of the Institute.

An open, international atmosphere

More than 370 Israeli and foreign postdoctoral fellows conduct research here, making for an international atmosphere. About 100 new postdocs join the postdoctoral program each year.

Over the years, nearly 3,000 postdoctoral fellows have completed their training through the Feinberg Graduate School, the Weizmann Institute's academic arm, and have gone on to become leaders in academia and industry. English is its official language of instruction. The scientific community at the Weizmann Institute is fertile ground for professional networking, and the Institute is a world hub of scientific conferences, with more than 60 major international conferences held on campus every year.

Postdoctoral fellows join the Institute alumni organization, which maintains **an active international network**, helping them advance their research and nourish their careers.

Top 10 reasons to do your postdoc at the Weizmann Institute:

- 1 Cutting-edge interdisciplinary research
- 2 Full access to all modern, state-of-the-art research facilities and support systems on campus
- 3 A large international community and atmosphere with English as the language of instruction; and valuable networking opportunities
- 4 Monthly living stipend
- 5 Travel allowance for overseas conferences and seminars
- 6 Full medical insurance and special allowances for airfare, relocation, and off-campus housing
- 7 Professional training insurance, paid maternity leave, paid annual vacation, and complimentary visa services
- 8 Monetary aid for relocation expenses
- 9 On-campus daycare; subsidized meals, and sports as well as recreational facilities
- 10 Centrally located in Israel, close to Tel Aviv and Jerusalem
